The ICP board has been monitoring the global situation and the ensuing uncertainties for international travel. With the safety of ICP members and guests our priority, the ICP board councilors voted to postpone the ICP meeting to be held in 2021 to 2023. It is our hope that by 2023 the pandemic will be significantly reduced in impact; global travel restrictions will be lifted, and we will hold a successful meeting in Shanghai.

The board appreciates the disappointment of a 4-year window between in-person meetings while recognizing that virtual education is here to stay. Building on the success of the ICP webinar series, the ICP board voted to hold a virtual meeting in the autumn of 2021. Discussions regarding IT capabilities and platforms, dates/times/time zones, speakers and sponsors will take place in the coming weeks and the feasibility for an educationally enriching and positive cash flow program will be determined as soon as possible. We encourage your feedback and please share your thoughts about a virtual program by replying to the co-Presidents (proshan@snu.ac.kr and skoka66@gmail.com). If global circumstances improve sufficiently, the board is open minded towards additional ICP activities in between the autumn of 2021 and Shanghai in the autumn of 2023. Nevertheless, the current situation makes it difficult to predict and plan with confidence.

Thank you for your continued support and membership in the ICP. The College is the only international specialty organization with an extended history of contributions to the science and art of our cherished specialty. The board is grateful to ICP members and officers both past and present for their commitment to a vibrant and enduring organization.
